#### Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

With respect to any drug or pharmaceutical products identified, readers are advised to check the most current information provided (i) on procedures featured or (ii) by the manufacturer of each product to be administered, to verify the recommended dose or formula, the method and duration of administration, and contraindications. It is the responsibility of practitioners, relying on their own experience and knowledge of their patients, to make diagnoses, to determine dosages and the best treatment for each individual patient, and to take all appropriate safety precautions.

To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.

# The Developing Human

## Clinically Oriented Embryology

9th Edition

### **Keith L. Moore,**

MSc, PhD, FIAC, FRSM, FAAA

Professor Emeritus, Division of Anatomy, Department of Surgery  
Faculty of Medicine, University of Toronto,

Former Professor and Head, Department of Anatomy, University  
of Manitoba, Winnipeg, Manitoba, Canada

Former Professor and Chair, Department of Anatomy and Cell Biology,  
University of Toronto, Toronto, Ontario, Canada

### **T.V.N. Persaud,**

MD, PhD, DSc, FRCPath (Lond.), FAAA

Professor Emeritus and Former Head, Department of Human Anatomy  
and Cell Science

Professor of Pediatrics and Child Health

Associate Professor of Obstetrics, Gynecology, and Reproductive Sciences,  
Faculty of Medicine, University of Manitoba, Winnipeg, Manitoba, Canada

Professor of Anatomy and Embryology, St. George's University, Grenada,  
West Indies

### **Mark G. Torchia,**

MSc, PhD

Associate Professor and Director of Development, Department of Surgery

Associate Professor, Department of Human Anatomy and Cell Sciences

Director, University Teaching Services, University of Manitoba

Winnipeg, Manitoba, Canada

# Contents

<b>1</b>	<b>Introduction to the Developing Human</b> 1	
	Developmental Periods 1	
	Significance of Embryology 5	
	Historical Gleanings 6	
	Ancient Views of Human Embryology 6	
	Embryology in the Middle Ages 6	
	The Renaissance 7	
	Genetics and Human Development 8	
	Molecular Biology of Human Development 10	
	Descriptive Terms in Embryology 10	
	Clinically Oriented Problems 10	
<b>2</b>	<b>First Week of Human Development</b> 13	
	Gametogenesis 14	
	Meiosis 14	
	Spermatogenesis 14	
	Oogenesis 19	
	Prenatal Maturation of Oocytes 19	
	Postnatal Maturation of Oocytes 19	
	Comparison of Gametes (Sex Cells) 19	
	Uterus, Uterine Tubes, and Ovaries 19	
	Uterus 19	
	Uterine Tubes 20	
	Ovaries 20	
	Female Reproductive Cycles 20	
	Ovarian Cycle 23	
	Follicular Development 23	
	Ovulation 24	
	Corpus Luteum 25	
	Menstrual Cycle 26	
	Phases of the Menstrual Cycle 26	
	Transportation of Gametes 27	
	Oocyte Transport 27	
	Sperm Transport 27	
	Maturation of Sperms 28	
	Viability of Gametes 29	
	Fertilization 30	
	Phases of Fertilization 30	
	Fertilization 31	
	Cleavage of Zygote 32	
	Formation of Blastocyst 35	
	Summary of First Week 37	
	Clinically Oriented Problems 38	
<b>3</b>	<b>Second Week of Human Development</b> 41	
	Completion of Implantation of Blastocyst 41	
	Formation of Amniotic Cavity, Embryonic Disc, and Umbilical Vesicle 43	
	Development of Chorionic Sac 44	
	Implantation Sites of Blastocysts 48	
	Summary of Implantation 48	
	Summary of Second Week 51	
	Clinically Oriented Problems 51	
<b>4</b>	<b>Third Week of Human Development</b> 53	
	Gastrulation: Formation of Germ Layers 54	
	Primitive Streak 54	
	Fate of Primitive Streak 56	
	Notochordal Process and Notochord 57	
	Allantois 58	
	Neurulation: Formation of Neural Tube 61	
	Neural Plate and Neural Tube 61	
	Neural Crest Formation 61	
	Development of Somites 63	
	Development of Intraembryonic Coelom 64	
	Early Development of Cardiovascular System 64	
	Vasculogenesis and Angiogenesis 64	
	Primordial Cardiovascular System 64	
	Development of Chorionic Villi 65	
	Summary of Third Week 66	
	Clinically Oriented Problems 69	

## 5 Fourth to Eighth Weeks of Human Development 71

Phases of Embryonic Development 71

Folding of Embryo 72

Folding of Embryo in the Median Plane 72

Folding of Embryo in the Horizontal Plane 72

Germ Layer Derivatives 72

Control of Embryonic Development 74

Highlights of Fourth to Eighth Weeks 76

Fourth Week 76

Fifth Week 77

Sixth Week 77

Seventh Week 80

Eighth Week 86

Estimation of Embryonic Age 89

Summary of Fourth to Eighth Weeks 89

Clinically Oriented Problems 90

## 6 Ninth Week to Birth: The Fetal Period 93

Estimation of Fetal Age 95

Trimesters of Pregnancy 95

Measurements and Characteristics of Fetuses 95

Highlights of Fetal Period 96

Nine to Twelve Weeks 96

Thirteen to Sixteen Weeks 97

Seventeen to Twenty Weeks 98

Twenty-One to Twenty-Five Weeks 98

Twenty-Six to Twenty-Nine Weeks 99

Thirty to Thirty-Four Weeks 99

Thirty-Five to Thirty-Eight Weeks 99

Expected Date of Delivery 101

Factors Influencing Fetal Growth 101

Cigarette Smoking 101

Multiple Pregnancy 101

Alcohol and Illicit Drugs 101

Impaired Uteroplacental and Fetoplacental Blood Flow 102

Genetic Factors and Growth Retardation 102

Procedures for Assessing Fetal Status 102

Ultrasonography 102

Diagnostic Amniocentesis 102

Alpha-Fetoprotein Assay 103

Spectrophotometric Studies 103

Chorionic Villus Sampling 104

Sex Chromatin Patterns 104

Cell Cultures and Chromosomal Analysis 104

Fetal Transfusion 104

Fetoscopy 105

Percutaneous Umbilical Cord Blood Sampling 105

Magnetic Resonance Imaging 105

Fetal Monitoring 105

Summary of Fetal Period 105

Clinically Oriented Problems 106

## 7 Placenta and Fetal Membranes 109

Placenta 109

Decidua 110

Development of Placenta 110

Placental Circulation 113

Placental Membrane 114

Functions of Placenta 116

Placental Endocrine Synthesis and Secretion 119

Placenta as an Invasive Tumor-like Structure 120

Uterine Growth during Pregnancy 121

Parturition 121

Placenta and Fetal Membranes after Birth 123

Maternal Surface of Placenta 123

Fetal Surface of Placenta 123

Umbilical Cord 126

Amnion and Amniotic Fluid 127

Umbilical Vesicle 132

Significance of Umbilical Vesicle 132

Fate of Umbilical Vesicle 132

Allantois 132

Multiple Pregnancies 133

Twins and Fetal Membranes 133

Dizygotic Twins 134

Monozygotic Twins 134

Other Types of Multiple Births 138

Summary of Placenta and Fetal Membranes 141

Clinically Oriented Problems 142

## 8 Body Cavities and Diaphragm 145

Embryonic Body Cavity 145

Mesenteries 148

Division of Embryonic Body Cavity 149

Development of the Diaphragm 151

Septum Transversum 151

Pleuroperitoneal Membranes 151

Dorsal Mesentery of the Esophagus 152

Muscular Ingrowth from the Lateral Body Walls 152

Positional Changes and Innervation of the Diaphragm 152

**Summary of Development of the Body Cavities and Diaphragm** 157  
**Clinically Oriented Problems** 157

## **9 Pharyngeal Apparatus, Face, and Neck** 159

**Pharyngeal Arches** 159  
 Pharyngeal Arch Components 161  
**Pharyngeal Pouches** 162  
 Derivatives of Pharyngeal Pouches 166  
**Pharyngeal Grooves** 169  
**Pharyngeal Membranes** 169  
**Development of Thyroid Gland** 173  
 Histogenesis of Thyroid Gland 174  
**Development of Tongue** 176  
 Lingual Papillae and Taste Buds 177  
 Nerve Supply of Tongue 177  
**Development of Salivary Glands** 179  
**Development of Face** 179  
**Summary of Facial Development** 186  
**Development of Nasal Cavities** 186  
 Paranasal Sinuses 187  
**Development of Palate** 188  
 Primary Palate 188  
 Secondary Palate 188  
**Summary of Pharyngeal Apparatus, Face, and Neck** 196  
**Clinically Oriented Problems** 197

## **10 Respiratory System** 199

**Respiratory Primordium** 199  
**Development of Larynx** 200  
**Development of Trachea** 202  
**Development of Bronchi and Lungs** 204  
 Maturation of Lungs 206  
**Summary of Respiratory System** 210  
**Clinically Oriented Problems** 210

## **11 Alimentary System** 213

**Foregut** 214  
 Development of Esophagus 214  
 Development of Stomach 215  
 Omental Bursa 215  
 Development of Duodenum 219  
 Development of Liver and Biliary Apparatus 221  
 Development of Pancreas 223  
 Development of Spleen 225

**Midgut** 227  
 Herniation of Midgut Loop 227  
 Rotation of Midgut Loop 227  
 Retraction of Intestinal Loops 227  
 Cecum and Appendix 230

**Hindgut** 238  
 Cloaca 238  
 Anal Canal 240  
**Summary of Alimentary System** 243  
**Clinically Oriented Problems** 243

## **12 Urogenital System** 245

**Development of Urinary System** 247  
 Development of Kidneys and Ureters 247  
 Development of Urinary Bladder 259  
 Development of Urethra 264  
**Development of Suprarenal Glands** 264  
**Development of Genital System** 265  
 Development of Gonads 265  
 Development of Genital Ducts 269  
 Development of Male Genital Ducts and Glands 269  
 Development of Female Genital Ducts and Glands 271  
 Development of Vagina 271  
**Development of External Genitalia** 273  
 Development of Male External Genitalia 273  
 Development of Female External Genitalia 275  
**Development of Inguinal Canals** 282  
**Relocation of Testes and Ovaries** 284  
 Testicular Descent 284  
 Ovarian Descent 284  
**Summary of Urogenital System** 285  
**Clinically Oriented Problems** 286

## **13 Cardiovascular System** 289

**Early Development of the Heart and Blood Vessels** 290  
 Development of Veins Associated with Embryonic Heart 290  
 Fate of Vitelline and Umbilical Arteries 295  
**Later Development of the Heart** 295  
 Circulation through the Primordial Heart 298  
 Partitioning of Primordial Heart 300  
 Changes in Sinus Venosus 304  
 Conducting System of Heart 312

**Birth Defects of the Heart and Great Vessels 313**

**Derivatives of Pharyngeal Arch**

**Arteries 324**

Derivatives of First Pair of Pharyngeal Arch Arteries 324

Derivatives of Second Pair of Pharyngeal Arch Arteries 324

Derivatives of Third Pair of Pharyngeal Arch Arteries 325

Derivatives of Fourth Pair of Pharyngeal Arch Arteries 325

Fate of Fifth Pair of Pharyngeal Arch Arteries 325

Derivatives of Sixth Pair of Pharyngeal Arch Arteries 327

Pharyngeal Arch Arterial Birth Defects 327

**Fetal and Neonatal Circulation 333**

Fetal Circulation 333

Transitional Neonatal Circulation 333

Derivatives of Fetal Vessels and Structures 337

**Development of Lymphatic System 339**

Development of Lymph Sacs and Lymphatic Ducts 339

Development of Thoracic Duct 340

Development of Lymph Nodes 340

Development of Lymphocytes 340

Development of Spleen and Tonsils 340

**Summary of Cardiovascular System 340**

**Clinically Oriented Problems 341**

**14 Skeletal System 343**

**Development of Bone and Cartilage 343**

Histogenesis of Cartilage 345

Histogenesis of Bone 345

Membranous Ossification 345

Endochondral Ossification 346

**Development of Joints 346**

Fibrous Joints 346

Cartilaginous Joints 348

Synovial Joints 348

**Development of Axial Skeleton 348**

Development of Vertebral Column 348

Development of Ribs 350

Development of Sternum 351

Development of Cranium 351

Cranium of Neonate 351

Postnatal Growth of Cranium 352

**Development of Appendicular Skeleton 357**

**Summary of Skeletal System 360**

**Clinically Oriented Problems 360**

**15 Muscular System 363**

**Development of Skeletal Muscle 363**

Myotomes 365

Pharyngeal Arch Muscles 366

Ocular Muscles 366

Tongue Muscles 366

Limb Muscles 366

**Development of Smooth Muscle 366**

**Development of Cardiac Muscle 367**

**Summary of Muscular System 369**

**Clinically Oriented Problems 369**

**16 Development of Limbs 371**

**Early Stages of Limb Development 371**

**Final Stages of Limb Development 375**

Cutaneous Innervation of Limbs 375

Blood Supply of Limbs 380

**Birth Defects of Limbs 382**

**Summary of Limb Development 386**

**Clinically Oriented Problems 386**

**17 Nervous System 389**

**Development of Nervous System 389**

**Development of Spinal Cord 392**

Development of Spinal Ganglia 394

Development of Meninges 394

Positional Changes of Spinal Cord 395

Myelination of Nerve Fibers 398

Birth Defects of Spinal Cord 398

**Development of Brain 404**

Brain Flexures 404

Hindbrain 404

Choroid Plexuses and Cerebrospinal Fluid 406

Midbrain 407

Forebrain 408

**Birth Defects of Brain 414**

**Development of Peripheral Nervous System 423**

Spinal Nerves 423

Cranial Nerves 424

**Development of Autonomic Nervous System 425**

Sympathetic Nervous System 425

Parasympathetic Nervous System 426

Summary of Nervous System	426		
Clinically Oriented Problems	426		
<b>18 Development of Eyes and Ears</b>	429		
Development of Eyes and Related Structures	429		
Development of Retina	431		
Development of Ciliary Body	435		
Development of Iris	435		
Development of Lens	437		
Development of Aqueous Chambers	438		
Development of Cornea	440		
Development of Choroid and Sclera	440		
Development of Eyelids	440		
Development of Lacrimal Glands	441		
Development of Ears	441		
Development of Internal Ear	441		
Development of Middle Ear	443		
Development of External Ear	444		
Summary of Development of Eyes	448		
Summary of Development of Ears	448

## Clinically Oriented Embryology

9<sup>th</sup>  
EDITION

studentconsult  
.com

With Student Consult Online Access

**Keith L. Moore, MSc, PhD, FIAC, FRSM, FAAA;**  
**T. V. N. Persaud, MD, PhD, DSc, FRCPath (Lond.), FAAA;**  
**and Mark G. Torchia, MSc, PhD**

**Obtain a complete and current understanding of human embryology** with the world's most detailed, visually rich, and clinically oriented textbook on this complex subject. Written by some of the world's most famous anatomists, it presents week-by-week and stage-by-stage views of how fetal organs and systems develop, why and when birth defects occur, and what roles the placenta and fetal membranes play in development.

- **Understand all of the latest advances in embryology**, including normal and abnormal embryogenesis, causes of birth defects, and the role of genes in human development.
- **See how discoveries in molecular biology have affected clinical practice**, including the development of sophisticated new techniques such as recumbent DNA technology and stem cell manipulation.
- **Prepare for the USMLE Step 1** with clinical case presentations, highlighted in special boxes, that demonstrate how embryology concepts relate to clinical practice.
- **Access the full contents of the book online** at studentconsult.com—as well as **16 remarkable animations** that bring normal and abnormal embryological development to life, **downloadable images**, and hundreds of **additional review questions and answers** to test your mastery of the material.
- **Acquire a detailed grasp of human embryology** with the world's most comprehensive, richly illustrated, and clinically oriented coverage from a cadre of leading world authorities.
- **Effectively prepare for exams** with review questions and answers at the end of each chapter.

Register and activate this title at [studentconsult.com](http://studentconsult.com) today...and bring this book to life!

- **Access the full text online** from any computer and perform **rapid searches** on any topic
- **View 16 animations** that illustrate normal and abnormal embryological development
- **Test your mastery of the material** with additional review questions and answers
- **Add your own notes and bookmarks**, and collect groups of images and tables to download for your notes
- **Follow Integration Links** to related bonus content from other **Student Consult** titles to help you see connections between diverse disciplines
- Reference all the **Student Consult** resources you own online in one place
